Wounded Desperado Died. Toronto, Ont., June 7.—Thomas Jones, one of the Chicago bank robbers, who was wounded in the attempt to escape, died at the hospital without making any statement. Rice and Rutledge, his pale, were convicted of the charge of robbing the postoffice at Aurora, Ont. They will be average ed on a charge of murder of Consta-ble Boyd in the futile dash for liberty. Rice, who is believed to have fired the fatal shot, is also suspected of having killed a man during a robbery

Snowstorm in June. Jamestown, N. D., June 7.- A June anowatorm is an unusual thing, but one occurred throughout the coutrai and northern portions of North Dakota. At Jamestown show fell for two hours. A similar state of affairs is reported in towns on the Jamestown Northern railroad. The snow quickly melted. Snow fell late in May in 1891, but the oldest settler fails to recall a similar occurrence in

Friend of Lincoln and Grant. St. Joseph, Mc., Jone 7 .- Captain H. S. Townsend, 88, friend of Lincoln and Grant died at the home of his son, Samuel Townsend, in East Maryville, Mo. He was a soldier, politician and statesman and accumulated considerable wealth. The remains were sent home to Warren, Ills.

The Weather.
Washington, June 7.—Ohio, fair and poler tonight; Saturday, fair.

SHORTAGE

Thirty Thousand Dollars Charged

Against the Town Clerk of Arlington, Mass.

The Clerk was Also Implicated in an Attempt to Burn the Town Hall When the Records Were Stolen.

Cambridge, Mass., June 7 .- In consection with the report of Middlesex county grand jury for its June sitting t became known that the shortage of Roland D. Swan, formerly clerk of the town of Arlington, who was arrested charged with the larceny of \$5,000 from the town, has been found to be more than \$30,000 short. Swan was also implicated in an attempt to burn the town hall the night the safe was ard the American ship Desing, robbed and records were taken, several weeks ago.

The grand jury found an indictment gainst Swan in 282 counts, alleging larceny. Swan pleaded not guilty, and at the request of the district his

Trustees Had Refused to Re elect a Member of the Faculty

And Removed Him Without a Trial for the Offense of Entertaing Views Known as "Higher Criticism."

Salina, Kan., June 7.—The trustees of the Kansas Wesleyau university refused to re-elect Professor F. D. Tubbs to the chair of natural science, which he has held two years. The cause of dismissal is what is known among the Methodist clergy as "higher criticism" of the Bible, a mild phrase for heresy. No formal charges are preferred against Dr. Tubbs. The trustees simply left aim out when making up the faculty for the coming year. The students circulated a petition of remonstrance against the faculy's action.

Following the close of the college commancement exercises, George A. Parrill, a member of the graduating class, asked the audience to remain. The students were intensely excited. and in the meeting which followed a number of them, nearly all theological students, some of whom are now filling pulpits, made fiery speeches demanding that the board of trustees explain publicly why Dr. Tubbs had not been re-elected. None of the board responded to the demands and the Rev. W. D. Scherme born of Lincoln. an alumnus of the university attempted to pour oil on the troubled waters by suggesting that the board probably had good reasons for its action. The students refused to be appeased and insisted in their demands. Dr. Mc-Gurk also made an impassioned speech

in defense of Dr. Tubbs. Dr. L. O. Hansel, a trustee at length explained that Dr. Tubbs' case was in Have Been Received from General Mac and a committee of the students decided to present their demands to that

DAUGHTER

Of a Prominent Lawyer Arrested.

Is Charged With Robbing College Students.

Money and Jewelry of the Value o Three Thousand Dollars are Alleged to Have Been Stolen by Her.

Northampton, Mass., June 7 .- Miss Mabel Lawrence Burt of Bridgeton N. J., daughter of a prominent lawyer of that place, was arraigned in the district court on the charge of larceny of a diamond ruby ring, the property of a student at Smith college, valued at \$1,000, and sums of money aggregating \$1,500 additional from various students at that institution. She pleaded guilty and was held in \$1,500 bonds for the grand jury. In default she was taken to jall. Her parents are on the way here. The amount of the property alleged to have been stolen will probably aggregate \$3,000. This includes money, watches, rings and several valuable pleass of jewelry.

Held on a Murder Charge. Atlanta, June 7.-G. B. Dunton, a yard conductor in the employ of the Southern railway, was bound over without bail to the superior court on the charge of murder. Evidence heard at the preliminary trial tended to show that Dunton was on the switch engine which Tuesday ran into the Macon passenger train, killing three people

Can't Become Bordiers. West Point, N. Y., June 7 .- No ofmedical examining board, but in official circles it is said that about 25 per cent of the young men who presented at the military academy were found physicaly disqualified, mainly on account of weak eyes.

Tiliman Withdraws Resignation. Columbia, S. C., June 4 .- Senator McLaurin having withdrawn his res ignation at the request of Governor McSweeney, Senator Tillman has also withdrawn his resignation, although he protested against the governor's body placed so that it will hereafter

TOMB

Where the Remains of Lincoln

Were Interred

Found to be in an Unsafe Condition.

Startling Discovery Made by Son of the Martyred President.

If the Tomb Should be Left in Its Present State the Body Would be at the Mercy of Body Snatchers.

Chicago. June 7.—The startling story is published here that the recent reinterment, of the remains of Abraham Lincoln at Springfield, Ills. was done in such a manner as to leave them in a measure at the mercy of body snatchers, and that steps will be taken at once, at the insance of Robert T. Lincoln, to have the body placed as in the former monument under a huge block of cement, where it will be out of the reach of any at tempt at molestation.

Mr. Lincoln some time ago conceived the idea that the remains of ficial report has yet been made by the his father were not properly secured against possible desceration by body snatchers, and determined to make an investigation on his own account. themselves for entrance examination He went to Springfield in the disguise of a workingman and spent much time in and around the new monnment. He came to the conclusion that the present location of the body left it in a measure at the mercy of anybody who should desire to carry it away, particularly as there is no watchman at the monument at night. He will take steps at once to have the matter remedied and have the be secure from interference.

Brewers' association, after considerable debate, adopted a resolution with the object of bringing the country brewers into their association. During the debate it was stated that as a rule the country brewers were not members, and this was regrettable because country brewers exert considerable political influence. The resolution provides for the sending of

Brewers Elect Officers.

Buffalo, June 7, The United States

agents throughout the country districts. The convention adjourned after the election of the following officers: President, N. W. Kendall of New Haven; first vice president, Joseph Theurer of Chicago; second vice president, John D. Brown of Chicago; treasurer, Herman F. Scharmann of Brooklyn; trustees, Edward Ruhl of Boston, John P. Ober of Pittsburg, Percy Andrew of Cincinnati and Rob-

ert Crain of Baltimore.

Flag Day at the Pan. Buffalo, June 7.-The program for the flag day exercises at the Pan-American exposition grounds has been announced. They will take place in the temple of music June 14 General Miles will be present and deliver an address. Richmond Pearson Hobson will also speak. - Mrs. Charles W. Fairbanks, president of the D. A R., will deliver an address on "Amer ican Patriotism." President John G Milburn of the exposition will wel come the patriotic societies represent ed in the gathering. The musical part of the program will be in the hands of

BREWERY

Sousa, whose band will be present.

Of the Pabst Brewing Company

Damaged by Flames to the Extent of \$200.000.

Four Coppersmiths were Caught in the Top of an Elevator and One was Killed in an Attempt to Escape.

Milwaukee, June 6.-The Pabst rewing company, suffered a loes by re of between \$150,000 and \$200,000. fully covered by insurance. One man was killed. The fire started near the roof of an elevator, where four coppersmiths were at work, making some repairs. It is thought the blaze originated from overheated copper, which ignited some screens. The elevator was gutted and a cupola containing the controlling machinery of the malt house, the building adjoining, was dohouse was badly damaged. John Smith, a coppersmith, died from injuries received in failing four stories while sliding down a rope.

Overdose of Morphine.

St. Joseph, Mo., June 7.--J. C. Frazier, a business man of Atchison Kan., brother of F. A. Frazier, cashier of the First National bank of that city, died at Ensworth hospital in this city from an overdose of morphine Nothing was found in his pockets that would lead to his identity. Another brother, R. P. Frazier, who for many years was credit man for the Steele & Walker wholesale grocery compa Will Stand as Final in Ohio as to the ny committed suicide he ago by taking morphine. ny, committed suicide here two years

Farmers, Pursue a Villain. St. Joseph, Mo., June 7 .- A body of 200 infuriated farmers scoured the timber 20 miles northeast of this city in an effort to capture an unknown negro who waylaid the 14-year-old daughter of George Dixon, a farmer, bound and gagged her and carried her off into the woods. Other schoolchildren spread the alarm and farmers were soon in pursuit. The negro became starmed and fled. A lynching is expected in event of his capture. Hersethieves Rounded Up.

Upper Sandusky, O., June 7 .- In the eastern part of Wyandotte county 30 farmers, had a running fight with three horsethieves, who were captured a few miles south of here after a chase of nearly 25 miles. Several shots were fired. The thieves are now confined in jail, where they gave their names as George, Cliff and Mell's

Founded the Order of Elks. New York, June 7.-George W. Cumberland, known to the American stage as George W. Thompson, "father of the Elks, is dead in Brooklyn from blood poisoning, following an operation on his band. He was born. in New York city in 1836, founded the Elka 35 rears ago and was the first exalted ruler of New York lodge No. 1. Major Arthur Dead.

Cleveland, June 7.-At the Weddell House Major George Arthur, 43, assistant army paymaster who recently returned from the Philippines, died of hemorrhage. He was a non of P. M. Arthur, grand chief of the Brotherbood of Locomotive Engineers, and was single.

Persons Injured in a Collision

Of Two Trains

On the Mississippi Valley Road.

Both Were Passenger Trains and They Met on a Sharp Curve.

Engineer's Prompt Action is Said to Have Prevented a More Serious Disaster-Names of the

Injured.

Vicksburg, June 6 -Nine persons were injured, three seriously, in a head-end collision between two Mississippi Vailey passenger trains nor of Vicksburg. Carey Jones, engineer train No. 24, had a shoulder dislocated and sustained internal injuries. He may die; E. S. Laretta, flagman, head crushed, probably fatally injured. Of the passengers, Miss Mary Doughty of Nagodoches, Tex., was the most seriously injured, her arm and hand being badly crushed. A number of other passengers were badly shaken The Southbound train was six and a half hours late and was running at a high rate of speed to make up time. At Clarksdale, five hours carlier, the southbound train crashed into a cabcose and Engineer Dana received injuries which may prove fatal.

The passenger trains collided on a sharp curve, and except for the prompt action of Engineer Jones in reversing his engine the disaster might have been more serious.

W. J. Harvey, mail clerk; Ed Holingsworth, colored fireman; James Williams, colored fireman; W. C. White, conductor; Ed Montgomery, flagman, and Engineer Skillman were among the injured.

Frauds Alleged.

London, June 7.-After a long and omewhat embittered discussion of the policy of the war office in buying horses for use in South Africa, the house of commons, by a vote of 159 to 60, voted the sum of £15,779,000 for dell Maple, Conservative, asserted that British officers who had been sent to Hungary and Austria had purchased broken down animals at extravagant prices and divided with the sellers the price charged the British government above the actual cost. He lemanded the appointment of a committe of inquiry. The war secretary defended the good quality of horses ought abroad.

Opening For Northern Money. Chicago, June 7 .- Efforts are being nade by a delegation of Birmingham (Ala.) business men to interest Chicago bankers in the establishment of a national bank in that city to be controlled by Chicago interests. The purpose of the southern people is to get surplus money from the north into their section. The earning power of banks in that section is said to be twice that in Chicago. Jonas Schwab is chairman of the committee which is visiting the Chicago bankers, endeavoring to interest them in the plan-

Crazed by Yellowbacks. Napoleon, O., June 7.—At his home near here Leroy Grove, 16, stabbed his sister, 24. to the heart, killing her instantly, strangled to death his brother, 13, set fire to the barn, then ran into the burning building and shot! bimself. His; charred body was recovered. It is supposed he was insame from reading dime novels of the Jesse James variety. Two years ago, a brother suicided.

Government of Philippines. Washington, June 6 .- The new civil capacity in order to supply the ships government to be established in the in Pacific waters. Fortunately, how-Philippines is receiving the consideration of the president and the secre tery of war. It will differ very little

from what was first intended, as there will be a governor for the archipelago and a legislative council and other officers. This government will have control of all civil affairs, but it will he under the war power, to the extent of being directed by the secretary of war. There will be a nice distinction as to the authority of the general commanding the troops in the Philippines and the governor to be appointed under the civil government. No official declaration has been made as to which will be the supreme authority, but it is known that the secretary of war will be supreme. While it is not the intention to conduct the government of the Philippines under the Spooner law, that law will be taken

as sanctioning what is to be done. To Be Investigated. Washington, June 7 haval board of inquiry will be assembled at San Francisco to investigate the explosien in the naval powder magazine at the Mare Island navy yard. Admiral O'Neill of the bureau of ordpance has not yet been officially advised of the explosion. The magazine at San Francisco is the only one Florence.

on the Pacific coast and has a large ever, all projectiles and ammunition are kept in detached buildings, so that the damage to the powder is not expected to result in a total loss of: summanition.

Lutherans Adjourn. Des Moines June 7 .- The general synod of the Evangelical Lutheran church, which has been in session in this city the past 10 days, completed its work and adjourned sine die. The time and place of next meeting was left for the executive officers to deeftie. Baltimore and San Francisco will probably extend invitations, The Municipurg mission in South Africa was left with the board of missions for final disposition. It probably will be abandoned. The question of estab lishing a church paper was decided in

Superstitions Grent Men. Superstition has not only prevented mankind from attaining a superior eminence of happiness, but what is more deplorable, it has added in a great de-J. L. Brooks, of Beaumont, Texas., gree to an already extensive catalogue has taken up the matter for the heirs of earthly miseries. It is not by the heavy aching pain constantly through and expects to recover the land now ignorant alone that superstitious beworth millions because of the oil boom. liefs are entertained, but by many emineat men of the past and present. Dr. Samuel Johnson was a firm believer in ghosts and second sight. Josephus, the great Jewish historian, relates that he saw the extraordinary sight of an evil spirit being induced to leave the body of an afflicted mortal upon the application of Solomon's seal to the patient's nostril. James VI, who was noted for his intellectual attainments and theological learning, was a firm believer in witchcraft. So deep a hold did this absurd notion have on him that he published a work upholding this doctrine and actually punished all who opposed the belief.—Exchange.

How He raveled.

Frayed Feeter-Many a railroad acident hey I been in mum.

Mrs. Whlffletree-Oh, deer, and was

there ever loss of life? Frayed Feeter-Oh, often, mum.

Why, de bigest smach I was ever in dere was over forty pigs on a hundred steers killed outright.-Judge.

That it is out of sight.

JACK, White Smoke from Soft Coal Round Oak Furnaces have large feed doors, burn wood or coal; but whatever they burn, give greater heat than any other furnaces, because all the gases and nearly all the smoke is consumed. The smoke is white from a Round Oak Furnace burning soft coal; that means no wastefuel. The principle is not new, but the application to the Round Oak is new-in that no holes are cut through the fire pot. Round Oak **Furnaces** are different from all others in many other in many other in many other in many other construction, in reasonable neas of price, if you are going to buy a furnace, send for our free furnace book—contains useful information about heating, dimensions, furnace regular mensione, fornace regula-tion, ventilation, etc.

Ambitious Hopes Based on the Texas Wells.

LIGNITE MINES ARE AFFEOTED.

Estimated at Nearly Half the American Coal Supply Now - The Oil Land Craze-Swindles In the Oil

Since the discovery of on near Beaumont, Tex., less than four months ago many millions of acres of lands scatterbe arranged for store rooms. When ed throughout the state have been purcompleted it will be a credit to the chased or leased by oil prospectors. It is the opinion of geologists who have Yesterday a fellow on giving his made a study of the situation that the name as Harry Miller, was soliciting oil belt extends from Benumont down Grande and even beyond the latter

The wild demand for land on which stated his condition to be due to a oil indications exist has led to a new malady the mentioning of which form of swindle, that of salting wells caused gentlemen to recoil from the with oil. An instance of this kind was degenerate. The charity of south brought to light at Austin a few days Lima business men for worthy appli- ago, says the New York Sun. A stir had been caused by the report that oil had been struck in a well that was being dug for water not many miles from Austin. The well had reached a depth of 35 feet when the alleged vein of oil was struck.

According to the farmer who was digging the well, who was corroborated by two Mexicans who were helping forgave her, and some little time afteraim, the oil poured into the well so fast that it was filled to a depth of several feet within a few minutes. There was t big rush to the supposed oilfield. The farmer placed a guard around the well and exercised great caution in letting visitors look at the oil. His land was worth \$5 an acre when the alleged oil strike was made, but when the crowds began to arrive he received offers of the form, which embraced 200 acres. The farmer accepted the \$90 offer, and with \$18,000 cash snugly stowed away in his pocket he left for parts unknown.

The purchaser of the farm found that the well was one-third full of oil. He sent a sample of it to Dr. W. B. Phillips, geologist at the State university at Austin, to be analyzed. Dr. Philips found that the fluid was pure illuminating oil and cottonseed oil in about equal parts. The farmer had dumped everal barrels of kerosene and cotionseed oil into the hole and had got rid of the property before the fraud was discovered.

Another oil well deal of a different character is said to have been worked in the Beaumont field recently. An expert oll man from Pennsylvania or Ohio who was drilling outside of the oll territory decided to shoot his well It had every appearance of being a dry hole, and he thought that possibly by shooting it the oil strata might be opened up. He quietly had the nitroglycerin go devil brought to Benument, and one afternoon he let the explosive drop into the well.

Those who are familiar with the gas of Kentucky. and old fields know the result to be ex pected, but when the oil novices saw a great stream of water and rocks shoot Mrs. Gus that oil had been struck or at least a ent ways. I know a man who is now nearly 48,000,000, that, in fact, in con-Spending several days at the But from the well the report quickly spread south Main street, left for Butler, Neistrum, of east Eureka street, have great volume of gas had been found of oil farther down. The shooting of beloing a man on with an overcoat. the well really produced no results, but The attending physician finds that the owner made no explanation of the and one day a big man, who was big was offered for the hole by a syndicate physically, and who had just got his accident on south Main street last of Texas oil novices he accepted the offer and turned the duster over to its to him and said: new owners. The latter have learned by this time that they did not know what they were buying, as the well has! been bored to a great depth and no oil | The boy didn't begin to be big enough

found. The present and prospective magnitude of the oil output of the Beaumout field is almost beyond comprehension. There are now 12 oil gushers. The actual daily output of the Lucas well as he saw the youngster stepping down shown by tests is 70,000 barrels. It is from a chair which had been standing asserted that the capacity of each of the other 11 wells is as great as the Lucas, and if such is the fact the present dally capacity of the 12 wells aggregates \$40,000 barrels. Multiply this y 865 and the result is 806,500,000 harrels as the output of the 12 wells for one year. At the present rate of development there will probably be 100 producing wells in the Beaumont field by

The annual coal production of the United States is approximately 252,-900,000 tons, valued at the mines at \$256,000,000. A series of tests have shown that it requires three barrels of Beaumont oil to equal one ton of coal for steam purposes. The 306,600,000 barrels of oil which the 12 wells in the Beaumont field are said to be capable of producing in a year is equal to 102,-200,000 tons of coal. A little more than twice the present number of wells with the same output would give a supply

It is estimated that the Beaumont oil can be sold at the wells for 20 cents a barrel, leaving the producer a big margin of profit. The large oil operators in the Beaumont field are already preparing for competition with the coal producers of the United States. Already the lignite coal producers of Texas are complaining that manufacturers are refusing to renew contracts for fuel. Many of the large coal dealers of the

state are securing the agencies of Beaumont oil companies. A number of large manufacturers of Houston and other cities of the state have already substituted oil for lignite. The Southern Paclic, the Gulf, Colorado and Santa Fo and all the other principal railway "So your conscience is troubling you. companies operating lines in Texas are is it?" queried his mother. preparing to use the Beaumont oil for

coal.

FOR LITTLE FOLKS.

Little Princess and the Tencup When she was a little girl, a very pretty story was told of Queen Wilhelmina of Holland. Her father was presented by the city of Amsterdain with a beautiful set of cups and saucers. So highly did be prize them that he at once issued orders that any one in the valuce who should be so unfortunate as to break one should be dismissed.

Not long after this order little Wilhelmina was surprised to discover her favorite footman weeping bitterly. It seemed that he had been so unfortunate as to break one of the cups in carrying it from the room in which he had been serving tea.

The princess was deeply grieved a the accident; but, having discovered that the pieces were quite large and could easily be glued together, she said to the footman: "If you will do exactly as I direct, I will try to help you out of your trouble.

You can easily glue these pieces together. This afternoon when you are serv ing tea bring this cup to me filled with cold tea, and I will see what I can do about it." The footman obeyed his directions exactly. A moment after the princess

exactly. A moment after the princess had received her tea she managed to let it full so that it broke into thou sands of pieces. The king was furious ly angry. "Goodby, father!" cried Wilhelmina

her arms about his neck. "I'm going You said whoever broke a cup should be banished." Of course the father ward she confessed the whole nilair. only she would never reveal which of the footmen had been the guilty cul-

SALTED BUTTER.

Why It Keeps Better Than Butter

That Is Fresh. does sait butter keep better ize that the bucterial population of a moderate sized pat of butter may be reckoned by millions, that a tiny lump only large enough to go into a thimble may unconsciously be assimilating individual lives exceeding in number those of the whole of Europe. Thus the urgency for keeping these hordes in, check and hence the efforts which are made, first, to set up effectual barriers to their ingress by taking proper precautions in the production of milk and. second, in the conduct of the processes involved in the manufacture and distri-

bution of the nuished article. Included in these processes is the addition of salt in such quantities as to justify the butter being known as sait butter, this addition being made with the object of extending the keeping powers of the butter or, in other words. to suppress to a large extent the activitles of the butter bacteria. That salt does act in this monner is shown by the fact that in butter thus treated a very large reduction in the number of micro-organisms present is effected. There can be little doubt, therefore, that the common butter microbes do. not by any means regard sait as their elixir of life.

In England boracic acid is said to beextensively used in butter as a preservative or antiseptic agent, while in the United States a recent public health document states that none was reported to have been found in the samples of butter examined. This is probably due to the fact that in America thereexists a strong prejudice in favor of salt butter, whereas in England the usaof sait butter is the exception and not the rule. Hence in America sait can be used as a preservative instead of the boracic acid employed for that purpose-

in Englandi The densely populated condition of butter above referred to is not to bewondered at if we realize that the raw material in the shape of milk may conteln from 500,000 to as many as 160,-000,000 of bacteria in a few drops. Longman's Magazine.

Pleasant Journeys

Pan-American Exposition

Lake Shore

and Michigan Southern Railway.

Every purchaser of a ticket to Buffalo and return this year desires that the journey be a pleasant and successful one. To be such it must be comfortable, prompt, interesting.

The use of the Lake Shore & Michigan Southern Railway will best meet such desire. This is an indisputable fact.

You will secure a selection of train service such as no other line of railway can present. Do not overlook return trip feature. After doing the Exposition,

Niagara Falls, etc., you'll be tired, and wish to reach home quickly. The frequency and certainty of Lake Shore service will stand you in good stead at that time, promoting a prompt departure and affording the best advantages for homeward travel of any line.

Our "Book of the Pan-American" contains maps and other useful matter for intending visitors. ""Book of Trains" tells about our service. You will need them both. Sent free on request.

When you are ready to buy your ticket be particular to tell the agent that you desire it to read over the Luke Shore & Michigan Southern By. All such tickets give option, bont or rail, either way, between Cleveland and Buffslo.

A. I. SMITH, G. P. & T. A., Cleveland, Ohio,

STORY ABOUT HERNE.

Eractical Jake Played by the Actor on a Saloon Keeper.

An almost forgotten meldent in the carper of James A: Herne, the popular antihor-actor, is recalled by his death. At was a current joke in the profession some years ago, says a correspondent of the Baltimore Herald. During the avar Herne was one of John T. Ford's company playing in Baltimore. John H. Raymoud and Owen Fawcett were wise members of it, and the trie had

the reputation of being inveterate practical jokers. On night, or, rather, one morning, for the god of day was just rousing himespied a simple old German washing be sold Tuesday at \$6.55. out his saloon. Fausing suddenly, Jim Herne whispered to the other two bis scheme, then entered the saloon in a foresque, official manner and, taking a mark off the dimensions of the apart-

ment. Raymond holding one end of the payment of \$1.00 extra at Buffalo. tape. The German looked on for several minutes mystified by the proceedings, but finally begged to know what they were doing. "There's no use mak-Ing soy fuss," answered Herne. "We are United States officials, with croers to appropriate your property for an arsenal." Then the saloon keeper be-

NEW MEDICALINSTITUTE PROTEGEE OF LINCOLN.

Rockefeller Plans One of a Sad Condition of Mother Fergu-National Character.

Gift of \$200,000 For Research Only the First Step In Vast Undertaking For the Cure and Prevention of Disease-Milk Supply Will Be Purified First.

Formal announcement was made recently of what is regarded by medical men as one of John D. Rockefeller's most ambitious plans for the amelioration of human conditions. The Rockefeller institute For Medical Research. plans for which have just been matured by the Standard Oil magnate. will have as its aim the cure of disease and the discovery of methods for its prevention.

Mr. Rockefeller, who long has had under consideration the establishment of such an institute, has kent his plans so well under cover that the announce ment comes as a complete surprise to medical men all over the country. From the men with whom he discussed his plans he exacted pledges of secrecy, and this gave rise to some misthe plan.

The New York World is able to state that the Rockefeller Institute For Medical Research will not be a New York institution, as has been generally supposed. It will, on the contrary, be national in its character. In fact, Mr. Rockefeller's plaus contemplate extending to the Canadian people the benefits of the institute's work.

The sum of \$200,000 has been set aside by Mr. Rockefeller to begin the work. This sum is not intended as an endowment fund, with the interest alone to be used. Although men in Mr. Rockefeller's confidence would not admit it, the belief is that he intends to give wast sums to carry on and enlarge the work of the institute.

Although New York, and particularly he poor of the city, will derive great enefits from Mr. Rockefeller's plans, Boston, Chicago, Philadelphia, Baltimore. Montreal and other large cities also will share in the results.

None of the \$200,000 set aside for this purpose by Mr. Rockefeller will be used for the construction of buildings. In fact, it is his plan to have the work carried on for the present through the laboratories of institutions in various cities. In New York the work will be done at Columbia university and in the department of health. In Boston the facilities of Harvard university will be utilized. The University of Chicago, the University of Michigan, McGill university in Montreal, the Johns Hopkins Pan-American Exposition are now on university in Baltimore and the Univercarrying forward the work of the Rockefeller Institute For Medical Research. In this way it is calculated the fullest benefit will be derived from the the cure of diseases and the discovery

No time will be lost in organizing the work of the institute. Before many lows. Special coach excursion tickets weeks it will be well under way. The large cities, it is believed, will derive prompt benefits. The first subject to day, will be the milk supply of cities.

The new Institute For Medical Refully the quality of the milk sent to the metropolis from outside points. The himself, and after that they always missing turkey, and by its side was a same thing will be true of other large cities. Men engaged in the work of the institute will be able to inspect the milk at the sources of supply, where, with the assistance of the local and Miss Maude Dickens, Parsons, state authorities, they will be able to

> One of the men foremest in the board of directors, while reluctant to discuss Mr. Rockefeller's plans at length, said that the investigation of the milk supsmall part of the work contemplated. He said that the new institute would proceed on the broadest lines, aiming to become as useful in a scientific way as is the Pasteur institute in France the Roch institute in Berlin or the institution established in St. Petersview to getting new information and. to applying existing knowledge to the

treatment and prevention of disease. Next fall, it is said, efforts will bemade to solve problems of medical science which have thus far baffled the profession. Experienced men will undertake this work, and no expense will be spared to make the results of widevalue. No effort to get quick results. It speaks well for Chamberlain's will be made. The object will be to. Cough Remedy when druggists use it obtain by thorough study results which will be of lasting value. couldn't stay but of it. Once General Fitz John Porter had me taken to the tear. I was right up with the ammunition wagon. I couldn't star back. When you are in a fight, you don't know you are fighting. You lose seuse of that. You see terrible things, and they don't move you. It's just as though your sense of feeling had suddenly gone dead. Around you the guns roar, and you see men fall, their heads off, a limb gone or shattered to pieces by a shell. You wade in blood, and you don't feel it. After the first flush Cared For Soldiers in tine ilunared of it is over you lose sight of every-

"Many of the New York soldiers I helped in the war. There were the Sixty-ninth, the Irish boys, and Coreoran's brigade. They passed us at Harrison's Landing, and I made coffee for some of the wounded of the Sixtyninth. And I buried some of the Twenty-first New York boys at Piedmont.

"Once when I came home on a furlough I took back with me to Martinsburg, Va., 21 recruits for our regiment. I had enlistment stripes on my arm then, and they came along willingly less at 80, dependent on the charity of and politely enough, those recruits. I was always sorry for the young recruits and helped them, for I felt like a veteran after a while.

"Some raw young fellows of the Twenty-first got into trouble and were tied up with their arms above their heads. The poor fellows, I knew, were fresh and I pitted them. I took a big carving knife and set them free. The officers raised a big row and all the cavalry gathered about me ready for a fight if they insisted on doing anything about it.

"Ah, that was a real war. I'm proud" of what I did, and there's nothing T love better than the old soldiers. I wept the other day when I read that General Fitz John Porter was dead. was assassinated," she said. "That pin He was a grand man, for all they used to sar of him. CHINA AND THE POWERS

Sir Robert Hart Points Out Some of Their Errors.

MISTAKE TO FORTIFY LEGATIONS.

Thinks Effort Should Be Made to Cause the Chinese to Realize That Legation Ground Is Sacred - Chinese Question No Nearer Solution Now Than Before the Tr. able.

The London Express gives the following account of an interview, under the date of May 24, with Sir Robert Hart, commissioner of customs in Chi-"I do not think that we are any pear

er to a solution today than we were before the trouble," he said. "The acceptance of the peace negotiations will not really advance the situation in any way, for China is for the moment at bay and will sign anything. Nor have I at all a high opinion of the terms laid down by the powers. Some of the conditions are futile and unnecessary, and much has been omitted which should have been inserted. I look on the proposed fortified legation quarter as a very injudicious move. It is a mistake strategically, politically and socially.

"Strategically because, however strongly such a place may be fortified, the Chinese will be able to capture it if they wish to; politically because a legation is in theory sacred ground, and it should be our purpose to make the Chinese understand that it must be so in practice. We ought to throw the onus of protecting the legations on the Chinese government and take measures to see that they do protect them. How can we have serious political dealings of any sort with a country whom we cannot trust even to this extent?

"Socially it is a mistake, because the presence of such a stronghold in Peking will make the Chinamen lose face, which is a more serious matter than some felks think, but above all it will cause relations between the white man and the Chinamau to be more strained and unsatisfactory than ever. If you are going to fortify the legations, which are in theory a protection in themselves, how much more necessary must it be to fortify the dwelling places of all other foreigners throughout China who will have no protec-

"Do you mean to imply by this that of peace and good will and mutual confidence, which I gather you believe to

be feasible?" "It will be a work of time and of delieacy. I think we should, in carrying on our negotiations, sometimes try and put ourselves in the Chinaman's shoes and look at things from his point of esced in them by spoken words and by is due to the fact that no attempt is "Our little daughter had an almost nods. The voluminous pledges were in made to treat the Chinaman as a ra-fatal attack of whooping cough and effect that they be frugal in habits, tional being. If we would deal satisbronchitis," writes Mrs. W. K. Havi- that the man at once insure his life for factorily with him, we must endeavor land, of Armonk, N. Y., "but, when the benefit of the woman, that they to understand him. A Chinaman, like all other remedies failed, we saved her avoid wrangling, and if they found in anybody else, will sign any contract life with Dr. King's New Discovery. time they were not "mated" that they when he is forced into it, but when forever endeavoring to find a means ic circumvent his persecutors. If you look back at the international dealings with China, you will find that nearly every contract that has been made with her

will. "People make a great mistake in imagining that the Chinese are not sensitive. They are extremely so, and the manner in which a thing is proposed to them goes a very long way. People imagine that Russia is more unpopular with the Chinese than are the other powers, but such is not the case. Whatever territory Russia may have acquired and whatever means she may have adopted in occupying that territory, her success at Peking is not wholly due to China's knowledge of Russia's power or to bribery. Russian officials al-ways treat the Chinese dignitaries with great courtesy and amiability, and the Chinese like their methods. Only recently a member of the tsung-li-yamen said to me: 'The Russians are so polite that when they take something from us they do it so nicely that we feel we must thank them. Whereas, even when certain other nations fall in with our views they do so in a manner which makes it clear that they have no

respect for us." "Has the foreigner improved his position with the Chinese by this display

of strength?" "That all depends, on how he makes use of his temporary advantage. If we progressive race like the Japanese, we shall make a great mistake. Not only farm at Mattapoisett, Mass. would it be impossible for us to alter the Chinaman's nature, but, as I have pointed out elsewhere, it is essential that we should be most careful to treat him very gently in the matter of reform. Why do we want to make him do this and do that, and above all why in the world do we want to arm him and make a soldier of him?

"We may thank heaven that he was not a soldier when the recent outbreak took place, and we may thank beaven that it will be some time before he becomes one, for on the next occasion succeed. Our endeavor must be if we rhoen Remedy had cured me. He Have ductored with several physicians wish to have people live in Chica, to put Chinamen in the way of understanding and appreciating the foreigner before they become strong enough

Scrofula

Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its hundlating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches, for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of

life so long as any of the transmitted poison recusius in its veins. Scrofula monifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive scree and abscesses are familiar symptoms, attended usually with less of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, cruptions breaking out on all parts of the body.

Scrofula destroys bone, tissue and fiesh; no part of the human system escapes its When nineteen years old, and about one year withering, benumbing fouch, effer the birth of my first child, the glands on the left ride of my neck began to swell. Four of the places were landed and became open running or who themselves may be sores; righters came under you left own misdeeds, the places were leaded and became open running screet risings came under my left arm, and the discharge was simply awful. The dectors said! had the worst came of Serofula they had ever seen. I took iedide of potassium, but this nor the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. RICHARD WASSON,

Golden Corners, Chio.

suffering for the sins of some remote aucestor, must restore their own blood to its normal purity and strength, or they cannot expect healthy robust children. S. S. S. cures Scrofula, like other diseases of a deepscated constitutional charge-ter, by restoring life and

parity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculous deposits, and the painful, disfiguring sores and other evidences of Scrofula disappear.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Hook on Blood and Skin Diseases free.

From the City to McBeth's

To be Complete

And in Operation by July First.

Improvements at the McBeth Park are Already Under Way

And Manager Maxwell Will Have Musicians and Performers Here June 30th -St. Marys End of the Line.

Work on the Lima-St. Marys electric railroad continues to progress rapidly and the promoters hope to have that portion of the road between Lima and McBeth's lake completed and in operation by the last of this month or the first of July. If there is any delay later than that date it will be occasioned by the imbility of bridge manufacturers to get the material here for the construction of the bridge that will be built over the C. & E. track near the Berryman farm.

Under the direction of Manager Ed. Maxwell the improvements at the Mc-Beth lake are rapidly progressing. The grounds are being thoroughly cleaned of weeds, the boat house is about to be removed to the east side of the lake, an open pavillion with stage in one end will be built on the east side near the hoat house and rustic bridges will be constructed at farious places in the park.

Manager Maxwell is engaging musicians for hand and orchestra and vaudevile performers to be on hand June 0. for the opening week.

Concerning the work at the St. Marys end of the new railroad the St. Marys Argus says:

These are busy days in electric the station on south Wayne street a very branch of the work necessary tures to be used for car barns, repair ledo. shop and power house. These buildings are much larger, and the expenditure of money required for their construction much greater, then our people imagined they would be when and as there is considerable important it was announced that the station business to be transacted an earnest would be located here. It is a fact request for a full attendance of officers beyond dispute that the location of this immense plant in St. Marys was fortunate for the town, and the members of the board of trade instrumental in securing it are deserving of much credit for their work in behalf of the city.

The power house as originally planned, is ready for the roof, and the work of pacing the immense iron work on top of the walls to support the roof has been progressing this week. The grouting for the foundation in the extension of the power house is being put in this week by two crews of men working day and night. When completed, this building will be nearly 200 feet long, and the four engines to he placed therein, aggregating 3520 Female Pal of "Billy the Flop" horse power, will supply electricity from Findlay to Piqua. Six cars. loaded with bollers and stacks, are now on the siding at the power house and more will follow in a few days.

The roof is being put on the car barn and repair shops this week and this building will soon be completed. We are informed that an extension

Mutial Knot Was Tied Here. Last Tuesday Miss Bose Benroth and Mait B. Swaner, of Beaver Dam, accompanied by the bride's sister Marie, drove to Lima, says the Bluffton News, where their marriage was quietly solemnized. Tom Buchanan joined the merry party at Lima. They all returned to Bluffton in the afternoon and received a royal reception at the home of the bride's parents. The happy couple left on the evening train on a ten days trip to Buffalo and other eastern points. Mrs. Sweeney is the accomplished daughter of Mr. and Mrs. Geo. Benroth and is one of our popular young ladies. Mr. Sweeney is engaged in the oil business and h very favorably known here. They have the hearty congratulations of a host of friends.

Why Not? Lima's a Good Town. The Bluffton, O., News published resterday containing the following paragraph:

"Lazarus Basinger is working in lima learning the bricklaying trade and gets good wages. John Schaeublin, who has worked only one year at the carpenter trade and who is only twenty years of age, works there also ınd gets \$2.25 a day."

Home Guards Meeting.
The local lodge of the Home Guards of America meets this evening and a decimal of America meets this evening and a decimal of the orgood attendance is desired. The organization is progressing rapidly and he officers and members desire to continue the good work.

Bert Neff's New "Dog House." B. L' Neff, of the opera house says he has ordered a new bass fiddle that will cost him \$250 (may be it should be written this way \$2.50," but he says two hundred and fifty.) The other members of the orchestra refuse to believe that Bert has ordered a new "fid" and threaten to dynamite the old one if he doesn't.
